

## 10pt touch Open Frame monitor with IPS panel and touch through glass function

The ProLite TF2215MC-B2 (21.5 inch) uses PCAP touch technology and is built into an eye-catching bezel with edge-to-edge glass. Thanks to a glass overlay covering the screen and a rugged bezel, it guarantees high durability and scratch-resistance, making it perfect for kiosk and high use public facing applications. Equipped with a foam seal finish it supports seamless integration into kiosks and provides IP65 rating resulting in dust and water resistance from the front. Landscape, portrait and face-up orientation ensures flexible mounting possibilities in almost any installation. For ease of integration, the TF2215MC-B2 can be equipped with optional external mounting brackets ([OMK3-1](#)) making it an ideal solution for kiosk integrators, industrial environments, control rooms and interactive multimedia.

### Touch Through-Glass

This through glass touch screen works right through glass and can turn glass surfaces into an interactive touch screen display. Use it on storefront windows, real estate office, in-store for POS or restaurants.

### Foam Seal

A foam seal finish (8mm) around the monitor ensures seamless integration and optimal dust protection.
